An advocate of organized growth, helping you succeed!

My background in the financial world began in 1999 as a bank teller in Texas. When I moved to my home state of Florida in 2003, I joined the local credit union team as a front-line teller. In 2005, my passion for payments began as I was guided into ACH Operations and check processing. Through mentoring, hard work, and dedication, I earned the Accredited ACH Professional certification in 2016. This personal development opened opportunities for further growth and knowledge in the ever-changing payments arena. I concluded my journey at the credit union as the ACH department supervisor, giving back by mentoring new payments specialists, just as others had done for me.

I am excited to be part of the ePayAdvisors team, where I can share my enthusiasm and expertise in the payments industry with you! In an ever-changing regulatory environment, I strive to maintain a thorough understanding of relevant rules and regulations to help you meet the goals of your payments business!

My credentials:

- Accredited ACH Professional - 2016
- Associate in Arts Degree, Vernon College - 2003

I am an Accredited ACH Professional with 15 years of payments systems expertise, eager to contribute to your success with integrity, trust, and thorough attention to detail!

Experience the ePayAdvisors difference!
